Increasing Access: Adelaide General Practice now have Therapeutic Guidelines at their Fingertips

Therapeutic Guidelines Ltd and the Adelaide Primary Health Network (PHN) are pleased to announce an agreement that extends access to *eTG complete* to general practice staff in the Adelaide metropolitan area. *eTG complete* is now accessible to local GPs and practice nurses via the [Resource Library](#) on the Adelaide PHN website.

eTG complete is a much-loved resource by GPs in Australia, with about 60% choosing to subscribe to the resource nationwide. Adelaide PHN has funded access to this resource as part of their commitment to supporting primary care providers to provide optimal patient care.

Therapeutic Guidelines Chief Executive Officer, Dr Leigh-Anne Claise, commented “this is great news for GPs, nurses and patients across Adelaide. As a not-for-profit, Therapeutic Guidelines continues to work with the healthcare community to find ways to fund wider access to *eTG complete*. We’re delighted to align with an organisation that shares our values and commitment to patient care.”

“Adelaide PHN is dedicated to supporting local providers to improve the delivery and experience of primary health care across the metropolitan region” says Deb Lee, CEO of Adelaide PHN. “Increasing the accessibility of resources like this better equips local GPs and practice nurses to provide consistent and quality care”.

GPs and practice nurses across metropolitan Adelaide can start accessing *eTG complete* now – visit adelaidephn.com.au/resources and register for access. Following verification from Adelaide PHN’s Practice Support team, eligible users can then login and click on the free access link via Adelaide PHN’s resource library. For more information or support, contact Adelaide PHN’s Practice Support team by emailing practicesupport@adelaidephn.com.au or calling 8219 5900.

About Therapeutic Guidelines

Therapeutic Guidelines Limited (TGL) is a not-for-profit organisation, independent of government and the pharmaceutical industry. *eTG complete* provides clear, concise and evidence-based recommendations for patient management at the point of care, developed by Australia’s leading clinical experts. For more information about *eTG complete*, see tg.org.au

About Adelaide PHN

Established and funded by the Federal Government, Adelaide Primary Health Network (PHN) is a not-for-profit organisation. It is one of 31 PHNs operating across Australia, and one of two in South Australia. Working closely with the wider Adelaide community and benefitting from the experience and knowledge of primary health care providers, it’s the job of Adelaide PHN to ensure the health system better meets people’s needs. Specifically, Adelaide PHN is tasked to:

- increase the efficiency and effectiveness of health services for people, particularly those at risk of poor health outcomes; and
- improve coordination of care to ensure people receive the right care in the right place at the right time.
